Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner indicated that rejections of record had been overcome. However, the examiner indicated that newly added method claims did not appear to be clearly supported by original disclosure. Examiner suggested that limitation of claim 39 requiring a depositing step "being accomplished without deliberately adding boron" be deleted to put claim in condition for allowance. Examiner also suggested either cancellation of claims 40-41 or amended to include specific materials supported by the specification at paragraph 20. Applicant agreed to an examiner's amendment in accordance with examiner's suggestions to put case in condition for allowance.
